

Shermanator Triathlon Aquabike Relay Swim Course

Race morning, there are two dock sections extending out into the lake from the swim area waterfront. You will start inside the dock area, on the right side. The start line is the end of the dock.

You swim counter clockwise with buoys always on your left.

You start and proceed past the first buoy and out to the turnaround buoy, making a 180 and then come back at a slightly offset line, again keeping the third buoy to your left. Once past the third buoy, you will use two yellow flutter flags on the shore line to finish your sighting to exit the swim course, alongside the other section of dock.
